WHAT YOU DON'T SEE...

What we don't know...can only hurt us! And there's a whole lot that they don't want us to know. The “They”, in this case being the PTB and the major main-stream media “They” control. So if you are not plugged in to some alternative news sources – if you rely on the major networks and news magazines – you are missing the major stories of the day – sucking in instead Lindsay Lohan’s latest trip to the hoosegow or Michelle Obama’s Spanish vacation. The fact is there is a world of activity going on that is ratcheting up the very real danger of a major war breaking out and it is somehow staying under the radar of the American public. So here are some of the developments of just the last several weeks and what those events could mean to our future. First the news, then the context.

A pro-Iranian terror group with ties to Hamas fired off rockets at targets in Israel and the Jordanian port of Aqaba – and here’s the big part – from the Sinai. Now the Sinai is under Egyptian control, which means that either the authorities in Cairo have lost control of the area or are looking the other way. This followed an attack by a terror group, on a Japanese supertanker in the strait of Hormuz.¹ In response, the US has posted the carrier, the USS Truman opposite the Strait of Hormuz. And in response to that, Iran has deployed resources of the Revolutionary Guards naval forces to shadow the American task force. These are more dangerous than one might think. The small Iranian gunboats are “souped-up” state-of-the-art British Bladerunners equipped with the most modern torpedoes that travel at a speed that “defies radar detection.” While the UAE claims that it was the al-Qaeda group that attacked the tanker, DEBKA reports that it was an Iranian sub that did the damage.² Does the presence of the American carrier signal some sort of impending action? Admiral Mullen, head of the American military recently admitted that a working plan is in place to take out the Iranian nuclear facilities. Then toss in the sniper attack by the Lebanese Army that took down a high-ranking IDF officer, - the fact that Secretary Clinton tweaked the Chinese by “stepping into a tangled dispute between China and its smaller Asian neighbors over a string of strategically significant islands in the South China Sea”³ – and the fact that Washington is ready to share nuclear technology with the Vietnamese, to set up Hanoi as a counterweight to China in the region.⁴ These later moves are driving up tensions with China. We already know that the unstable situation between the sinking of the South Korean sub by the North Koreans and the brinksmanship that has followed has made for a dangerous situation there. And the US is blithely holding its ground on all of these fronts; - the Middle East, the Korean Peninsula and in the South China Sea. Could a really massive – and sudden – worldwide war be on the horizon?

This all brings to mind the Illuminati plan revealed by Peter Lemsuier in his 1980 work, *The Armageddon Script*. Besides economic collapse – (a very real possibility) – that scenario called for – among other things – a world war erupting on at least three fronts to create the conditions that would bring a New Age Christ to power. Those fronts: Israel, Korea and China moving against Taiwan; an island the US is pledged to defend. So how crazy then are the statements Cuban Dictator Fidel Castro – (which the mainstream media painted as rantings) – in which he warned of a world war triggered by an Israeli attack on Iran? He said, “Simultaneously, the war would break out in the Near and Far East and across Eurasia.” In Castro’s thinking this would bring hundreds of millions of deaths, as well as the end of the social order. And that’s exactly what the Illuminati types have told us they’re shooting for in order to bring in the New World Order.⁵

There is one more NWO source to which we can turn for confirmation that this just might be the plan: A connected former British Military man, now a part of the heady financial circles in the ‘City of London’, - from whence the world’s economies are controlled. He interviewed with Bill Ryan a respected researcher on the coming New World Order and the author of *Project Camelot*. We’ll call our anonymous witness ‘W’. Back in 2005 he attended a meeting of Senior Masons in the City of London. At the meeting W, outlined what he heard, much of which was outlandish beyond belief – especially in the casualness with which some subjects as nuclear war and the slaughter of billions of souls through biological weapons – were referred to by dozens of ‘insiders’ that seemed to be ‘in on’ the plan. These were not the decision makers – for the most part – but were more at the operations level, carrying out decisions that had long ago been decided. W did say that there were some senior officials present, big-wigs from the Conservative Party, and high ranking members of the Church of England. Because of his position he was assumed to be part of the group that was ‘in the know’. It was the one and only meeting that he attended. According to Ryan, driven by conscience, he is now coming forward to warn the world of what is on the near horizon.

W asserts that all the preparations are already in place. A major part of that preparation was the financial collapse of October 2008. That was a planned event. We’ve noted here before that the entities that ‘made out’ when all the government money was being thrown around

were those that were ‘connected’ to the international banking and finance houses throughout the globe. Even when paper losses were being absorbed it resulted in the accumulation of more power by Illuminati bankers. We put it like this: The financial collapse was merely the “centralization of financial resources.” It is all part of a scenario being worked over many generations. Even World War’s I & II were a part of the plan. Here are Bill Ryan’s bullet points of the most important points in his exhaustive interview with W.

1. *“There is a planned Third World War, which will be nuclear and biological. Our source believes that this is on track to be initiated within the next 18-24 months.*
2. *It is planned to begin with a strike by Israel on Iran. Either Iran or China will be provoked into a nuclear response. After a brief nuclear exchange, there will be a ceasefire. The world will be thrown into fear and chaos - all carefully engineered.*
3. *The extreme state of tension will be used to justify heavy social and military controls in all western first world nations. Plans are already in place for that.”⁶*

Now we can’t really know what ‘The Plan’ is – or what God will allow. But we do know that forces bent on shaping our world according to One World / New Order image have, in the past, revealed their schemes – and strangely, pieces are now seemingly falling into place to fulfill those plans.

Rumor or Immediate Deadline ?

In a nutshell the plan is this: Create chaos to bring in the New Age Christ. And that is to start with a war between Israel and her neighbors. So the news out of Russia and Iran is most disturbing. Russian will begin loading uranium into Iran’s Bushehr nuclear plant on August 21st. That’s just days away and could be very significant. It is at that point that – in the words of former US Ambassador to the UN John Bolton – the nuclear facility becomes “essentially immune from attack by Israel.” He goes on to explain that “once the rods are in the reactor, an attack on the reactor risks spreading radiation in the air, and perhaps into the water of the Persian Gulf.” The general expectation is that both Israel and the US would refrain from attacking a fully fueled reactor. Now whether this is the crisis that will force Israel’s hand we cannot say. However, Bolton believes that there is a very real possibility that the Israelis could launch an attack before the uranium is delivered. That would be before August 21st – the day before this newsletter officially comes out!^{7 8}

Iran has warned long and often that an attack against their nuclear plants – by either the US or Israel would mean a general war against the Jewish state and attacks against American interests in the region. If Iran stayed essentially out of it – and used proxies instead such as Hezbollah, Hamas and Syria – that could fulfill the Psalms 83 prophecy of a war launched by Israel’s closest neighbors. As argued here before, we believe that such a war is the next large and necessary conflict according to Scripture. And Jan Markell quotes the Israeli blogger Yoni to make the case that war may indeed be imminent. Hezbollah has 60,000 rockets and numerous tunnels into northern Israel from southern Lebanon. Satellite intelligence showed that Hezbollah terrorists have received “special chemical weapons engineered to eat through protective equipment...[which can] now be loaded onto Hizbullah rockets.” In addition, Israel is reported to have developed intelligence that Hezbollah is planning its own preemptive attack for the end of August.⁹ George Will explains the long term developments that have led to such a volatile situation. It began with the Iranian Revolution of 1979 that brought us the Ayatollah Khomeini, and radical Islam expressed in groups like Hezbollah and Hamas. This new force became religiously committed to the very destruction of Israel. The now deceased Khomeini said that he would rather see his country, Iran, “go up in smoke, provided Islam emerges triumphant in the rest of the world.” In the words of Iran’s current strong man, the Ayatollah Khomeini - Israel is “the enemy of God.” Iran’s President Ahmadinejad, concurs with that sentiment, seeing the resultant chaos as but a religious windfall in that it would bring to power the Mahdi, the future Islamic world ruler and messiah. Prime Minister Netanyahu clearly sees the reality of all of this. An Iran with atomic weapons in tow would be a very dangerous thing. He will not likely allow that to happen without at least an attempt to stop it. George Will thinks we might have as much as two years before Iran becomes a nuclear power and Israel will be forced to make that decision.¹⁰ He may be right. Neither the US or Israel has made much of a diplomatic stink about this latest development and so Putin has decided to push ahead with “fuelling up” the Iranian reactor.¹¹ One week or two years? Either way, we are on the edge!

ECONOMICS & REVOLUTION – PART XVI

We’ve been trying to firm up that connection between the One World plans of Illuminated Masonry and events both historic and current that point to the operation of a master plan. To that end we turn to Master Mason Albert Pike and a letter that he wrote to Italian occultist, Giuseppe Mazzini. It sheds interesting light on not only the events of the last century – but also on some current goings on.

WORKING THE PLAN

“For God knows that in the day you eat from it your eyes will be opened, and you will be like God, knowing good and evil”.
(Genesis 3:5)

A Letter

It’s always important to remember just what we are dealing with. This is more than the strivings of evil men that we face. We are truly in a struggle with the dark forces of this world – and the universe; Powers & Principalities. Men like Pike and Mazzini and their confederates – were plugged in to the blackness of Luciferian worship while they hatched their plots. If we’ve established anything it is

this: There is an evil plan afoot! In fact there are several. There are forces in the world today that have set their minds and committed their lives to bringing mankind's rebellion to fruition. They are working toward 'creating the Antichrist'. Included are: Shiite Muslims expecting the Mahdi, Gaia worshippers, Illuminati / One-Worlder-types like those that sit on the CFR or the Bildebergers, radical environmentalists, those that worship the 'divine feminine', Theosophists, New Agers, the higher orders of the Freemasons and more. Some know just who he is, [Satan / Antichrist]. Others deny the reality of just 'who he is'. Others still are willingly deceived by the powers that would bring him about. Make no mistake however, his spirit is in the world and men are about the work of bringing him to power.

A good place to start is to recall the plans of the Masons as revealed by Satanist and Masonic heavyweight Albert Pike. Previously we quickly reviewed his 'prophetic' letter concerning the three world wars, that according to his demonic spirit guide, would have to be fought to bring the Antichrist to power. It's essential that we understand just who Pike really was. He served as a Confederate General, the Grand Commander of North American Freemasonry and a founding leader of the Ku Klux Klan. With Prime Minister Palmerston of England, Italian revolutionary Giuseppe Mazzini and Germany's Chancellor Otto von Bismarck, he worked to impose the satanic Palladian Rite on all Masonry. He was said to be in contact with Lucifer himself. In 1871 he wrote the now famous *Morals and Dogma*, laying out the rules and purposes of Masonry. "Every Masonic lodge is a temple of religion" whose purposes is to "conceal the truth" with "false interpretations" for the lower 29 degrees of the lodge. That truth is that "God is, as man conceives him, the reflected image of man himself." His god and that of the Masons was not the God of the Bible, but Satan himself; - "Lucifer, the Light Bearer! Strange and mysterious name to give to the Spirit of Darkness! Lucifer, the Son of the Morning! Is it he who bears the Light...Doubt it not!"¹² In *Morals and Dogma*, Pike calls Satan "he who bears the light" and refers to their ultimate goal, - the One World Government; - the "Holy Empire".¹³

It was the purpose of the Masons, Pike believed, to foment war and conflict until the coming of the 'One'. In a letter to Giuseppe Mazzini, dated August 15, 1871, he describes a demonic vision for three world wars that would lead to the establishment of the One World Order. This letter was for a time in the British Museum in London where it was copied by Canadian Naval officer, William Guy Carr.

Now its important to know here just who Mazzini was. He was an adept, steeped in the occult. Mazzini became the man behind the European revolutionary movement, taking control of the powerful *Alta Vendita* and the *Carbonari*. His goal was the complete destruction of Christ's Church. Words attributed to the dark Italian genius called for "the destruction of Catholicism and even of the Christian idea" to prevent its "resuscitation". The means he employed was the control he exercised over the lower Masonic degrees, using them to achieve his revolutionary ends. He was even able to fool many Catholics in that Catholic country into supporting his revolutionary aims. Albert Pike was his partner in these occultic plans to keep the masses in and out of Masonry in ignorance. To this end, Pike later instituted a super-rite called the *New and Reformed Palladian Rite*, to act as the guiding force for all the brotherhood. One writer described it thus: "Palladianism is the cult of Satan in the inner shrines of a rite superimposed on all the rites. It is a cult, a religion".¹⁴ So this letter went out and this is what it said.

1. The first war was to bring down the Russian Czars and "weaken the religions". It was to start as a conflict between the German and British Empires. "At the end of the war, Communism will be built and used in order to destroy the other governments". That is exactly what happened.
2. War #2 would be fought between "Fascists and the political Zionists". The world was to emerge from that war with a Jewish State in Palestine and worldwide Communism able to serve as a foil to the 'Christian' West. Russia was to become the master of Europe. In the event, they got the eastern half of it. It's interesting to note that the Allies, the US and the UK, had chances to advance more quickly, taking control of more of that continent, but slowed down and chose not to do so. This was much to the chagrin of General Patton at the time. Not in on the fix, he was convinced that the Russians were enemies of the US even while we fought the Germans together. Now at the Yalta Conference, and confirmed again at Potsdam, much of Eastern Europe was turned over to the control of the Soviets. This American surrender of whole peoples to Communist dictatorship can only make sense if we factor in the Masonic / Occult plan which spawned it. All three of the leaders at Yalta, Roosevelt, Churchill and Stalin were Masons. So again, what the letter planned, is exactly what happened.
3. The third war is to pit Islam against Zionism (Israel) and end in their mutual destruction. Other "nations, once more divided on this issue will be constrained to fight to the point of complete physical, moral, spiritual and economical exhaustion". At its end those "disillusioned with Christianity... will receive the true light through the universal manifestation of the pure doctrine of Lucifer, brought finally out in the public view".^{15 16 17}

Now Pike and Mazzini were not the first Satan worshippers on the block to call for and plan worldwide wars to advance their cause. Karl Marx had written in 1848 that "The coming world war will cause not only reactionary classes and dynasties, but entire reactionary peoples, to disappear from the face of the earth. And that", he said, "will be progress".¹⁸

So you see the three world wars were to serve the purpose of preparing the world for the new messiah. But the New Agers teach that the New Christ cannot appear until mankind is spiritually prepared for his presence. Historian Guido Preperata makes the case that both

World Wars were the creation of the central banks housed in London.¹⁹ In the US, Secretary of State William Jennings Bryan, no friend of the banks, was aware of the deep interest in America's involvement in the war. The French Rothschilds and the Morgan banks were arranging loans even before hostilities had fully broken out at the beginning of August 1914.²⁰ According to Henry Makow again, beginning in the late 19th century, it was the banking interests that built up Germany as a rival to Britain. After Germany survived that war, they rebuilt Germany again.²¹ War meant fantastic profits. The Rockefellers, who supported US involvement in the European conflict, made in excess of \$200 million.

We've already seen how the US entrance into the war was suspicious indeed. Independent investigations conducted years after the fact have come to the conclusion that, - in the words of the Los Angeles Times, - "The Lusitania, proves beyond a reasonable doubt that the British government connived at the sinking of the passenger ship in order to lure America into World War I". And there were the brothers Warburg working for opposite sides - the United States and Germany at the Peace Conference in Versailles.^{22 23} Thus situated, the Warburgs, (and the Rothschilds, specifically mentioned in Article 263 of the Versailles Treaty that ended WWI), set themselves up to profit from the \$33 billion reparations settlement that Germany had to pay the Allies.

It was shortly after this that certain American businessmen began what would turn into a very curious relationship with German business interests. In 1920, Averell Harriman and Bert Walker, grandfather to the first President Bush, purchased a controlling interest in the Warburg financed German company, the Hamburg-Amerika Line. In 1932, - this same company had, - according to the American embassy in Berlin, - inserted itself into German politics by supporting Hitler's violent drive to power, which garnered support by stoking the anti-Semitic sentiment in the recently defeated and therefore resentful nation. The embassy reported that the Hamburg-Amerika Line was "purchasing and distributing propaganda attacks against the German government" for its attempt to crackdown on Hitler. In 1933, Erich Warburg of the German branch of the family, wired his cousin Fredrick M Warburg, (on the board of the Harriman railroads), - to 'use your influence' to suppress 'atrocious news and unfriendly propaganda' against the Nazis. Just two days later, the Warburg controlled American-Jewish Committee and B'nai B'rith issued a joint statement against a proposed boycott against German goods and an end to mass meetings on the subject.²⁴ This set up a direct conflict between some of the major Jewish controlled banking houses against their Jewish brethren either suffering under Hitler's attacks in Germany or protesting against it elsewhere.

Follow the money farther and you see that the Schroeder Bank, through its managing director, - who was also a Director of the Bank of England, - supported both the rise of Hitler and the "Appeasement Party" in Britain that allowed him to rise against the lonely howlings of Winston Churchill in his 'wilderness years', - when he was out of power.²⁵ Then there is the well documented support on the part of the major banks for the Bolshevik / Communist Revolution in Russia. The Morgan controlled Guaranty Trust provided cash directly to the Russian Bolsheviks. One William Boyce Thompson, of both the Federal Reserve and Rockefeller's Chase Manhattan Bank, contributed to the Communists substantially from his own fortune. British cabinet member, principal of the Round Table that was Rhode's brainchild, and London bank director Lord Milner also funneled funds to the Commies. During the First War Arthur Lehman of Lehman Brothers, the Morgan Guaranty Trust and the DuPonts all ponied up to support the revolution. Jacob Schiff had earlier paid the bill for revolutionary literature for Russian prisoners of the Russo-Japanese War to take home with them. And it was this same Morgan-Rockefeller financing that made possible the Soviet Union's Five Year Plans, in the 1930's, ultimately ensuring that regime's survival.²⁶
²⁷ The Wall Street Bankers wanted to make sure that this revolution thing took off. There was an understanding between capitalists and reds that is lost on today's propaganda believing masses. (The American university system has apparently done its job well.) All of this was made possible by the sympathies and blind eyes of key members of President Wilson's Administration. The biggest key was of course his chief advisor, Colonel House, who successfully worked to prevent the British and French from giving aid to Russians fighting against the revolution.²⁸ Did you get that? The Wilson administration - and the powers that controlled it - effectively engaged in back door diplomacy that insured the survival of the Communist Revolution!

So how do we explain the support of the wealthiest men in the world for a communist revolution? No, these men were not communists, - but instead were seeking unbridled power. Historian Antony Sutton suggest a kind of "superficial schizophrenia, which in fact masks an integrated program of power acquisition". Carnegie himself, for instance put up \$10 million to found the Carnegie Endowment for International Peace. Besides the socialist one-worlders like John Dewey and Lincoln Stefens, the movement drew support for the likes of the powerful such as Paul Warburg, Bernard Baruch, Herbert Hoover and even Lord Milner of Rhodes' Round Table. Woodrow Wilson cooperated by enabling the revolutionary Trotsky to re-enter Russia. Trotsky returned to Russia in fact, with "a fortune in gold" and accompanied by 275 revolutionaries that had been living in the US. It was all a scheme- but only a few were in on the whole thing. Many believed that global government was just what was needed. So governments were to become socialist, while "while the ultimate power would remain in the hands of the international financiers". From the look of things, it seems they pretty much have been following that plan down to today - and succeeding.^{29 30} In much the same way, the Obama Transformation; while ostensibly a triumph of the revolutionary spirit of the 60's - actually serves the ends and goals of the PTB - the Moneyed Elite. That's the dirty little secret about the relationship between economics and revolutions!
