July 3, 2011

Issue #351

### GAY PRIDE: THE WAR AGAINST THE CULTURE – PART IV

*The primary thrust of the movement to normalize the gay lifestyle in recent years has been the civil rights angle: 'After all, it's just another lifestyle' and 'We can't help it, - we were born that way'. Despite the fact that the genetic determination of homosexuality has been, thoroughly, scientifically, and admittedly debunked, (even in the 'Gay Press'), - the myth continues. 'We are just normal people who happen to prefer our own team', goes the argument. It is on that basis that the case is made for Gay Marriage, and a general cultural affirmation of the homosexual lifestyle. Earlier this month, the UN weighed in on the side of this new ethic with a resolution that condemned discrimination on the basis of sexual orientation and set up an investigatory body to look into the "the challenges that LGBT persons face around the globe." It was the global body's first foray into that area and an important first step it was.<sup>1</sup> This is all a part of the process of trying to normalize the aberrant. Consider this quote from the Washington Times. "US Department of Agricultural activists want to impose their intense brand of homosexual sensitivity training government wide, including a discussion that compares 'heterosexism' – believing that marriage can only be between one man and one woman – to racism." The push to spread the training to other government departments is being led by Agriculture Secretary Vilsack, himself.<sup>2</sup>*

*But no matter how one tries to normalize it, the fact remains: What they are selling is anything but normal. As one peels back the layers, the phenomenon's true nature is revealed. Homosexual activist Daniel Villareal admits what we've known all along. Here's a quote from a column he wrote in – of all things - a publication dubbed Queerity. After admitting in a completely vulgar way that he wanted to see "young boys to grow up and start" ...ahem, you know... "men". He wrote: "I and a lot of other people want to indoctrinate, recruit, teach, and expose children to queer sexuality AND THERE IS NOTHING WRONG WITH THAT."<sup>3</sup> By their own words they are reveling in – and would have us celebrate with them – their unbridled, destructive perversion. This great lie is destroying physically and spiritually, both individual and culture.*

#### Beyond The Veil

**"The wrath of God is being revealed from heaven against all the godlessness and wickedness of people, who suppress the truth by their wickedness, since what may be known about God is plain to them, because God has made it plain to them. For since the creation of the world God's invisible qualities—his eternal power and divine nature—have been clearly seen, being understood from what has been made, so that people are without excuse. (Romans 1:18-20) (NIV)**

Gay marriage has become the wedge issue for cultural change. As I write this on June 23, 2011, the New York Senate is said to be just one vote shy of making it the sixth state to legalize the practice.<sup>4</sup> Here's the argument. "It is only fair!" If all people are created equal, - in the image of God, - then it is only fair that society treat all equally. Forbidding gays to marry, - enjoying the societal benefits of marriage, - is just imposing our moral beliefs on others. It is a matter of fairness, and tolerance, and civil rights. The argument moves from toleration, to acceptance, to moral equivalency. "What's the difference?", say they.

The argument is logically flawed. First, it assumes that the homosexuality of the individual is pre-disposed by God or genetics. We have seen that it is not. Homosexuality is in essence behavior. It is a choice made to indulge in a certain pattern of behaviors and identification. If this were not true, there would not be thousands who have left the homosexual lifestyle. Studies show a success rate of from 30% to 70% of orientation change among those wanting to change.<sup>5</sup> Neither is genetic determination supported by numerous studies of identical twins, where no correlation has been found. Secondly, the argument assumes moral equivalency. But while all people are equally the creation of God, - all ideas and behaviors are not equal. Violence and forbearance, adultery and fidelity, honesty and lying are not morally equivalent. Behaviors are the consequences of moral decisions, - as such they have moral consequences. Even where genetic tendency exists, it does not abrogate moral responsibility. Someone may inherit a predilection for violence, or alcoholism. This does not mean that drunkenness and wife beating should be tolerated, affirmed and ultimately celebrated. Dr. Joseph Nicolosi, President of the

National Association for Research and Therapy of Homosexuals (NARTH), explains that “Many conditions seem to have a genetic foundation – alcoholism, schizophrenia, diabetes, learning disabilities... But a genetic disposition does not indicate normality, desirability or even unchangeability of a condition”. He cites a 1997 NARTH survey of nearly 900 individuals who had experienced a degree of change in sexual orientation. Before treatment, 68% had thought of themselves as almost exclusively homosexual. After treatment that number was only 13%.<sup>6</sup>

Thirdly, Christians are neither imposing a belief system nor discriminating when opposing gay unions. If anything, the opposite is true. Marriage has a definition and a purpose that has survived society for millennium. It is the union of one-man and one-woman, for the institutional purpose of providing and raising up the next generation. It is open to all adult individuals who wish to partake. The homosexual lobby has set out to change that definition of marriage; - not just to rectify a wrong, or even for their own benefit, - but in fact to, (in their own words), “...wholly transform the definition of family in American culture”.<sup>7</sup> Lest you think this is an isolated sentiment, held by a few at the kook fringe, let me offer you more; in ‘their own words’. One advocate for same sex unions explained, “Being queer means pushing the parameters of sex, sexuality, and family, and in the process, transforming the very fabric of society.”<sup>8</sup> One official report of the City of San Francisco, saw gay marriage as the means of divesting that institution “...of the sexist trappings of the past”.<sup>9</sup> Noted author Judith Levine chimed-in in the Village Voice to argue that “Gay Marriage Isn’t Radical Enough”, envisioning a world where “...the sex or number of persons entering into a marriage unit” would not be restricted by law.<sup>10</sup> The Bible says, **“So God created man in His own image; in the image of God He created Him; male and female He created them... Therefore a man shall leave his father and mother and be joined to his wife, and they shall become one flesh.”** (Genesis 1:27, 2:24) One man, one woman!

But even same sex unions, in their most benign and limited forms are destructive to the culture. Here are some reasons:

1. The success of Western Civilization is based on the notion of eliminating sexuality as the overriding force that drives the culture. Marriage between one man and one woman, was one of the requisite corollaries. If you remember back to the first installment, Dennis Prager argues that this was the radical departure from paganism, adapted by the Judeo-Christian culture that enabled the success of the West. It is the Gay Lobby that seeks here to alter the status quo.
2. Traditional marriage is in the best interests of the child. Hundreds of studies confirm that the ideal unit for raising children is the traditional one; - a household characterized by a two-parent, heterosexual, covenantal, committed relationship.<sup>11</sup> Any other arrangement markedly raises the risks of child abuse, poverty, psychological disorder, academic underachievement, teen pregnancy, drug use, etc, etc.
3. When it comes to raising children: Any homosexual union is necessarily parasitic in nature. It is the corollary to #2 above. Gay unions can neither produce the children nor provide the gender-balanced role-modeling necessary in child rearing. (This is not to say that some kids won’t turn out ‘OK’. It is however, problematic.)
4. It follows from points 2 & 3 that the society, through government should therefore encourage only traditional marriage, - because it is the best means of assuring the raising up of the next generation, - thereby continuing the society.
5. It would radically and unalterably change the culture. Public morality would be in conflict with religious morality, undermining its civilizing relevance.
6. Following from #5: It destroys the relevance of Biblical morality, which was instituted by God for the benefit of man.
7. The very nature of the homosexual phenomena is intrinsically destructive. It destroys wherever it goes.

It is not an innate sense of “homophobia” or hate that underlies that statement, but rather a deep and studied concern that homosexuality is destroying the culture, destroying individuals in its grasp, and destroying children who are buying into the lie that it is a morality-free / consequence-neutral lifestyle choice. To illustrate the point, let me share some facts about the “nature of the beast”.

- Extensive studies reveal that, over the course of a lifetime, 73% of gay men had over 100 sexual partners, - 41% had over 500, - 26% had over 1,000. A rather promiscuous lifestyle, that!<sup>12</sup>
- The Advocate, a gay magazine reports that of 600 gays and bisexuals surveyed in Milwaukee, 73% said that within the previous 6 months, they had sex with someone that they never saw again.<sup>13</sup>
- The American Journal of Public Health reported in 1994 that 50% of gay men and 41% of lesbians surveyed used hallucinogens. About 80% of each used marijuana.<sup>14</sup>
- Dr Nicolosi of NARTH quotes studies that say that, by 30 years of age, 30% of gay men “will be HIV positive or dead of AIDS”. By age 50, about half will be HIV positive.<sup>15</sup>
- According to the AMA, gay youth are about 23 times more likely to get STDs.<sup>16</sup>
- On a per-capita basis, child molestation and pedophilia are more than 7-times more likely to be committed by homosexuals. About 86% of pedophiles describe themselves as gay or bisexual. The average homosexual offender

will molest over 150 male victims during the course of a lifetime, as opposed to about 19 for the heterosexual molester.<sup>17</sup>

The idea of sex with children is not necessarily an aberration in the homosexual phenomena. One researcher, Steve Baldwin, author of *Child Molestation and the Homosexual Movement*, came to the conclusion that "...child molestation is an integral part of the homosexual movement". The gay rag *Guide*, advocated the position that "children are naturally sexual" and "deserve the right to sexual expression with whoever they choose... Instead of fearing being labeled pedophiles, we must proudly... do it for the children's sake". Many homosexual publications advertise openly for child sex including the aforementioned *Advocate*. *The Journal of Homosexuality*, has published many articles promoting the benefits of "intergenerational love". The *North American Man-Boy Love Association*, of course promotes the practice openly.<sup>18</sup> Homosexuality, clearly is not a neutral lifestyle choice. Yet for those living its lie, it is a dark and tragic life. In Romans 1, Paul describes their condition as one in which they suppress "**the truth in unrighteousness**". They "**...became futile in their thoughts and their foolish hearts were darkened... Therefore God also gave them up to uncleanness, in the lusts of their hearts, to dishonor their bodies among themselves... For this reason God gave them up to vile passions.**" (Romans 1: 18, 24, 26) Yet still they try to justify their sin. The fact is, they want it affirmed by the rest of society; - accepted, even celebrated.

This gospel of the tolerance of evil, (though of course it is not recognized as such), is spread with impunity by the Gay Lobby and its liberal acolytes. The National Education Association has voted strongly in favor of mandatory sensitivity training for teachers and adopted resolutions calling for "Gay / Lesbian History Month". AIDS education in one Ohio school system has 5<sup>th</sup>- graders reading a story about a boy who preferred boys to girls and ends up contracting the disease.<sup>19</sup> Another story, aimed at Middle School students, *Entries From a Hot Pink Notebook*, is a pornographic, sexually detailed account of sex between two boys. A purported documentary, *Its Elementary*, has also made its way around schools, portraying not tolerance but anti-Christian bigotry. Children interviewed in the film, routinely parrot the film-makers agenda that Christians are small minded and bigoted by nature.<sup>20</sup>

This is not just an 'alternative lifestyle' they're selling – it is a way of death. Homosexuality inevitably brings; - promiscuity, STDs, alcoholism, drug use, AIDS, increased mental illness and even suicide. (Most prominent by the way, in places like San Francisco, New York, and the parts of Europe most accepting of the gay lifestyle.) There is an emptiness there that cannot be filled without God. Romans 1:26-27 gives stark sentence for persisting in that evil. "**For even their women exchanged the natural use for what is against nature. Likewise also the men, leaving the natural use of the woman, burned in their lust for one another, men with men committing what is shameful, and receiving in themselves the penalty of their error which was due.**" We'll finish by looking at Gay Theology: The Fight Over God's Word.

## **THE NORTH KOREAN THREAT**

A number of Illuminati-influenced sources have let it be known that a massive military threat from North Korea is part of the plan to bring the world to the brink of disaster in the drive to set up the New World Order under the guiding hand of the New Age Christ. (That would be the Antichrist, to all of us Bible thumpers.) We've quoted before Peter Lemesurier's book, *The Armageddon Script*, where the author warns that the PTB intend that "*A hair raising nuclear confrontation in Korea may, towards the end of the period, threaten mankind's very survival.*" Well here's a couple of stories that show us how this is all setting up and just how close we might be to the fulfillment of their dark plans.

First from Newsmax: "*North Korea's last round of tests, conducted in May 2009, appear to have included a 'super-EMP' weapon, capable of emitting enough gamma rays to disable the electric power grid across most of the lower 48 states.*"<sup>21</sup> Did that get your attention? It got mine! And then there's this. The Business Insider quoted a "top strategist" from the Illuminati-connected Center for Strategic and International Studies regarding emerging North Korean capabilities. "*North Korea will have developed a compact nuclear warhead that can be attached to ballistic missiles and fired onto the U.S. mainland by next year.*"<sup>22</sup> Lemesurier further reveals in his book that the PTB are readying a three-front war that includes 1) Israel and her Arab neighbors, 2) The Korean Peninsula, & 3) A Chinese invasion of Taiwan. Thus: The Plan is advanced.

## **AMERICA FOR SALE**

OK, follow this. The majority owner of the China National Machinery Industry Corporation (Sinomach) is the Chinese Communist Party. And Sinomach is looking for opportunities. They believe they see one south of Boise, Idaho, of all places. The company wants to set up a "*special economic zone*" there; of about 50 square miles. The "*self-sustaining city*" would include "*would include manufacturing facilities, warehouses, retail centers and large numbers of homes for Chinese*

workers. Basically it would be a slice of communist China dropped right into the middle of the United States.” And it doesn't stop there. The Chinese are looking to set up these same sort of zones in several other states.<sup>23 24</sup> With employment opportunities sagging and states and municipalities struggling to honor their long-term obligations, governments are likely to be more than willing to go along. Another state-owned Chinese firm is “buying a multibillion-dollar stake in 600,000 acres of South Texas oil and gas fields, potentially testing the political waters for further expansion into U.S. energy reserves.”<sup>25</sup> The online publication, *The End of the American Dream* sums up the case. “In 2011, America is for sale and the communist Chinese are eager buyers. The Chinese government is using sovereign wealth funds and Chinese state-owned enterprises to buy up economic assets and huge tracts of land all over the United States.”<sup>26</sup> In case you don't recognize it - that's economic colonialism - and we're the ones being colonized. Welcome to the 21st Century. Our new benefactors out of Beijing have a name for it already. They call it: ‘*The Chinese Century*’.

## MELTDOWN

That little 9.0 earthquake and subsequent tsunami thingy that struck Japan earlier this year was...well...a little more serious than it was made out to be at the time. The Japanese government has finally come clean and confirmed that three reactors suffered full meltdowns. That of course will likely have long-term affects on the surrounding areas. Contamination could make them uninhabitable for years to come.<sup>27</sup> Strontium levels rose to 240 times the legal limit. The uninhabitable area is approximately 17 times the size of Manhattan. Along with cesium, another element present; strontium causes cancer, leukemia and birth defects.<sup>28</sup> Meanwhile, the US may be having its own problem. The Nebraska City News noted that the Cooper Nuclear Station issued a “Notification of Unusual Event”, - which is the lowest-level warning “of four emergency classifications established by the Nuclear Regulatory Commission.”<sup>29</sup> But on the other hand, *The Nation* published purported information directly from the UN's IAEA that another facility in Nebraska, the Calhoun Nuclear Plant, - suffered a “catastrophic loss of cooling”. It suggested that the US was hiding the information – (at least according to a the Russian nuclear agency) – by instituting mandatory news blackouts and ‘no-fly zones’ over the area.<sup>30</sup> After the obfuscation that went on in Japan for three months – why you just don't know what to believe!

## SET UP FOR OBADIAH ?

Israeli PM Netanyahu addressed a cabinet meeting in which he pushed for a complete separation from the Palestinians. He does not wish to debate the number of Palestinians that would live inside Israeli borders after the creation of a Palestinian State. “*The debate over how many Jews and how many Palestinians will be between the Jordan and the sea is irrelevant...I have no wish to annex them into Israel. I want to separate from them so that they will not be Israeli citizens.*”<sup>31</sup> Now that fits in exactly with a prophecy found in Obadiah. In his writings the Prophet dealt with God's judgment specifically on the Palestinians, referred to as both Edom and Esau in this prophecy. Obadiah 1:15-16 identifies the time. It is the time of the end – the time of God's judgment on the nations. **“The day of the LORD is near for all nations. As you have done, it will be done to you; your deeds will return upon your own head.”** (NIV) Verse 17 tells us that **The house of Jacob will possess their possessions.** In the Last Days, Israel will actually occupy all the Land that God has promised. Zechariah 12:9 tells us: **“It shall be in that day that I will seek to destroy all the nations that come against Jerusalem.”** It is during the struggle of those days that God promises this devastating judgment against the enemies of His people. **“The house of Jacob shall be a fire, And the house of Joseph a flame; But the house of Esau shall be stubble; They shall kindle them and devour them, And no survivor shall remain of the house of Esau, For the LORD has spoken.”** (Obadiah 1:18) It would take just such a separation of Palestinians and Israelis to make the fulfillment of such a prophecy possible. This is speculation: But it possible at that point to conceive of – say – a chemical or biological attack against Israel by, let's say Hamas with the cooperation of Hezbollah and the Syrians that would set in motion a massive IDF response that would seize southern Lebanon, devastate Damascus with nuclear weapons and wipe out the Palestinian population – fulfilling many End Time prophecies in the process.

## SOMETHING STUPID

A survey of the Church of Sweden revealed that only about 15% of its members actually believe in Jesus. Post-Modernism has gone so far there that there is no requirement to do so. An analyst with the Church doesn't really see an issue there. “*It's not really a problem; rather, it's a byproduct of the secularisation in Swedish society.*” Most of the members identify with the social values of the Church of Sweden rather than any religious / faith standards. And here's the kicker. 15% of “members” call themselves atheists and about 25% identify as agnostics.<sup>32</sup> Go figure!
